

## SC #1080 Processing Equipment

### Application: Chilled Water Processor

The customer requires a tube-in-tube heat exchanger for processing equipment. The product side has water in at 200 °F and out requires 40 °F. The media side has chilled water in at 34 °F and out as needed.

### Solution

- Tube-in-Tube Heat Exchanger
- Model # AS-01194-01
- All 316L Stainless Steel

### Features & Benefits

- Heat Transfer Area 3.7 ft<sup>2</sup>
- SF1: 20 μin (0.5 μm) R<sub>a</sub> Max
- Inner Tube Fitting: Tube Stub
- Outer Tube Fitting: NPT
